alokshukla6060@gmail.com | 8957764137

Github || **LinkedIn** || **GFG** || **Leetcode**

SKILLS SUMMARY

- **Programming Languages:** Java, C, C++, JavaScript, TypeScript, Data Structure and Algorithm
- **Technical Skills:** Full Stack Development, MERN-Stack, Email-JS, Apis, DBMS, Object-Oriented Programming
- **Frameworks and Tools:** ReactJS, NodeJS, Next-JS, Express-JS, Git/GitHub, MongoDB, Redux, Docker

WORK EXPERIENCE

- **All India Council for Technical Education (Government AICTE):** Interned at AICTE, focusing on promoting developers, where I worked as a Frontend Developer.(**Certificate**)   **(20Jan to 20-March)2024**
- **INDIA SPACE LAB:** Interned at India Space Lab, gaining hands-on experience in robotics, space stations, and satellite operations across various fields.(**Certificate**)   **(15-Dec to 15 Jan)2025**
- **Admin Ed Gate Technologies Pvt Ltd**: R.T.Nagar,Bangalore:560032.(**Certificate**)   **(22-Sep to 4-Oct) 2024**

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering**   **October 2022-Present**
  VIT Bhopal University, Sehore, Madhya Pradesh, India   **CGPA:7.84/10**
- **Higher Secondary Education (XII)**
  Shri Durga Ji Inter College Sehda, Azamgarh, Uttar Pradesh, India   **(Percentage:78.6%)**
- **High School Education(X)**
  S.N Singh Memorial High School Pura Bad Lahi Ambedkar Nagar Uttar Pradesh India   **(Percentage:81.5%)**

PROJECTS

- **Elite-Mart:** Elite-Mart is an e-commerce platform built with ReactJS, MongoDB, NodeJS, Tailwind CSS, Stripe, and Cloudinary for smooth transactions and image management. (**Elite-Mart**)   **(March-2025)**
- **Portfolio:** My personal portfolio built with ReactJS, featuring smooth animations using Motion Framer and email contact form integration with Email-JS.(**My Portfolio)**   **(Nov-2024)**
- **Agro-AimStore :** A web platform built with TypeScript, Tailwind CSS, ReactJS, Context-API, and Graph Map, designed to sell, manage, and visualize agriculture-related products. (**Agro-AimStore**)
- **Wonder-Lust (2023):** This website is designed for online hotel room bookings. It allows users to search for available rooms, and securely pay using Stripe for payment processing. The website is built using **HTML**, **JavaScript**, **CSS**, and **Stripe** Gateway for payment. The hosting is done using **Render**. (**Wonder-Lust**)   **(Oct-2023)**

CERTIFICATES

- Machine Learning and Deep Learning Specialization. (**Coursera Certificate**)   **(Sep-2023)**
- Cloud Computing (NPTEL). (**Certificate**)   (**April-2024**)

ACHIEVEMENTS

- Contributions in **Girl Script Summer of Code 2024**   **(April-2024)**
- **TCS Code Vita** (Global rank-4775 out of 4.4Lakhs)   **(Nov-2024)**
- **LeetCode :** (350+, question solved)
- **GFG:** (150+, question solved)

COURSES

- **Relevant Courses:** Data Structure and Algorithms | Fundamental in AI and ML | Programming in JAVA | Database Management System | Object Oriented Programming in JAVA
- **Online Courses:** The Bits and Bytes of Computer Networking (Coursera) | The complete web development(MERN)
